

## HI-GARDE HEAT RESISTANT & CHEMICAL RESISTANT HOOK AND LOOP

### Summary

Hi-Garde fasteners are all steel, heat and corrosion resistant, woven hook and loop tapes. Usable to 800°F and in corrosive applications where type A.I.S.I 300 corrosion resisting series steels are suitable. May be attached by sewing, adhesive bonding or spot welding.

### Construction

<b>Base material</b>	Non-corrosive metal
<b>Width</b> (woven with 1/16" selvedge each side)	± 10%
<b>Hooks per square inch</b>	Over 250
<b>Packaging</b>	75 foot rolls
<b>Colour</b>	Steel grey

### Performance

<b>Peel Strength</b>	0.40 P.I.W. average
<b>Shear Strength</b>	150 PSI average
<b>Cycle Life</b>	10 cycles minimum

### Temperature Range

	<b>High</b>	<b>Low</b>
<b>Based upon 1000 hours of exposure</b>	800°F	- 40°F
	426.7°C	-40°C

The information in this Technical Sheet is based on reliable tests and trials. Given the diversity of the use of our products we advise our customers to ensure themselves that the product meets the requirements of their application. The responsibility for the application and use of the product remains with the customer.
